At the 23rd Annual General Meeting of Shareholders Meeting held on June 21, 2022, the Company obtained approval for the necessary Company's Articles of Incorporation change and made the transition from a company with Audit & Supervisory Board to a company with Audit & Supervisory Committee. By adopting this corporate governance system, Audit & Supervisory Committee Members, who is in charge of audit and supervision of execution of duties of directors, will become a member of the Board of Directors, thereby strengthening the supervisory function of the Board of Directors and further enhancing corporate governance. In addition, by enabling Board of Directors to broadly delegate decisions on business execution to directors, we aim to speed up decision-making on business execution. At the same time, we aim to achieve sustainable growth and increase corporate value over the medium to long term by focusing on important management decisions such as management plans by Board of Directors.

As a result of this year's survey, we have determined that the effectiveness of the Board of Directors has been largely secured. In response to the survey results, issues from a medium- to long-term perspective were raised, such as "setting KPIs that enable the Company to achieve sustainable growth" and "a system to periodically review the entire Group's business portfolio in consideration of securing sustainable profitability and the cost of capital." Going forward, the Company will strive to improve corporate governance through the resolution of issues identified in this evaluation, and further promote management aimed at sustainable enhancement of corporate value.
